

PUBLIC NOTICE

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Archie PWS Failure to Meet Monthly Turbidity and Disinfection Reporting Requirements

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We are also required to report monthly drinking water test results to the Missouri Department of Natural Resources (department) by the 10th of the following month. Specifically, we failed to submit the monthly disinfection and turbidity report for the December 2023 monitoring period to the department by January 10, 2024, in violation of state and federal monitoring and reporting requirements.

What should I do?

There is nothing you need to do at this time.

What happened? What is being done? (Describe corrective action.)

The reporting will be done by the time required from now on.

For more information, please contact water system staff indicated below:

Rick Blundell at 816-293-5601 or _____
(name of water system contact) (phone number) (mailing address)

Additionally, you may contact the Missouri Department of Natural Resources Kansas City Regional Office at 816-251-0700 or the Public Drinking Water Branch at 573-526-6925.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
